

Francisco Sendino

Rather than simply documenting the superficial, Francisco Gonzalez Sendino examines subjects with an honest and ever-interested lens, going deeply into the cultural dynamics of the subjects he's working with.

The films from Francisco take us on a path where habitual and cultural norms are constantly examined, always done through a distinctive humanistic perspective. Through precision and passion, Francisco weaves sensuality through layers of emotions and storytelling.

This daring style has resulted in awards such as the Young Directors Award in Cannes, the 1.4 Award in London, and the Berlin Commercial Award.
